Begin to Do Small Plot Research for Seed Companies

The Natchez Democrat/Anne McDaniel
After selling three trailer loads of corn Wednesday morning, things were a little slower for Riverview Farm employees Wednesday afternoon, giving Jared Parker, left, and Stephen Pritchard time to taste-test the fresh corn they have for sell as Chris Ensminger shucks an ear of corn Wednesday. The three were selling the fresh corn from a trailer on the Ferriday-Vidalia highway. Riverview will finish cutting their first crop today and will have more corn available in just a few days when the next field is ready.
