Ryzon 75DF – Application Instructions

Ryzon can be applied to conventional and CLEARFIELD rice.

Apply Ryzon at 0.4 to 0.5 lb/A early post.

Apply to rice that is at least at the 2-leaf stage.

Maintain permanent flood after Ryzon application.

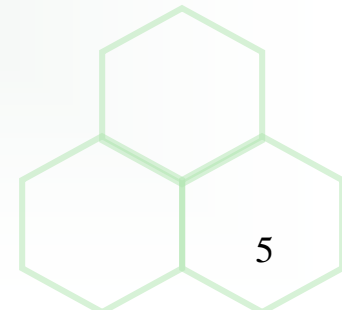

Ryzon provides longer residual weed control with higher rates.

Foliar applications can be applied to dry or water-seeded rice at 2-
leaf stage

Ryzon 75DF Herbicide

- § Tested in Pre-emergence and Post-emergence trials
- § Tested in tankmixes with Newpath, Rice Star, Stam EC, Stam WB, others
- § No crop phyto and excellent weed control
- § Performance was equal to that obtained with Facet at equivalent rates
