

New Innovations from BASF

Emerging Technologies II

**Louisiana Agricultural Technology &
Management Conference
February 16, 2017**

Alvin Rhodes
BASF Technical Service Rep.

Provisia™ Rice System

 **BASF**
We create chemistry

- **Provisia herbicide – EPA registered**
- **2017 – Provisia rice seed increase**
- **2018 – Provisia Rice System Launch**
- **Superior Grass Control** – Controls red rice, wild-type rice and barnyardgrass, including ALS resistant biotypes
- **Flexible** – Limited rotational restrictions
- **Resistance Management**

Newest Trait System for Red Rice Control in Rice

Armezon[®] Herbicide

Sugarcane

 **BASF**
We create chemistry

- EPA Registration: Expected 1st Qtr 2017
- Common Name: Topramezone
- Chemical Family: Pyrazoles
- Postemergence Grass and Broadleaf Weed Control
- Crops: Corn & Sugarcane (pending)

Armezon[™]
HERBICIDE

Postemergence Weed Control

Zidua[®] Herbicide for Peanuts

- EPA Registration expected in May 2017
- EPost applications only from cracking to beginning pod development
- Residual control of annual grasses, sedges and broadleaf weeds

Registration Pending

Engenia™ Herbicide

■ EPA Registration

- ▶ Conditional 2-year
- ▶ Approved 12-20-16

■ Louisiana Registration

- ▶ 24c
- ▶ Approved 1-17-17
- ▶ LDAF approved training

■ Labeled Crops

- ▶ DT Soybeans
- ▶ DT Cotton
- ▶ Burndown applications
- ▶ Corn, small grains
- ▶ Sorghum
- ▶ Sugarcane

We create chemistry
