One Hundred Fifteenth Congress of the Hnited States of America

AT THE SECOND SESSION

Begun and held at the City of Washington on Wednesday, the third day of January, two thousand and eighteen

An Act

To provide for the reform and continuation of agricultural and other programs of the Department of Agriculture through fiscal year 2023, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Agriculture Improvement Act of 2018".

(b) TABLE OF CONTENTS. - The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents

Sec. 2. Definition of Secretary

- Hemp redefined to include its "extracts, cannabinoids and derivatives," Removes hemp-derived CBD -- from CSA.
- DEA can't interfere with the interstate commerce of hemp products.
- Hemp farmers now may access crop insurance and participate in USDA programs for certification and competitive grants.
- States may impose separate restrictions or requirements on hemp growth and the sale of hemp products – however, they cannot interfere with the interstate transport of hemp or hemp products.

7 CFR 990 INDUSTRIAL HEMP

RESTRICTIONS

CBD VS FIBRE

INDUSTRIAL HEMP PROGRAM

Presentation will be posted on the LDAF Website:

http://www.ldaf.state.la.us/industrial-hemp/

- Tribal lands
 - > LDAF has no authority
 - > MUST submit tribal plan, or
 - Work under the federal plan

- SEED
- ACQUISITION
- CERTIFICATION
- TESTING
- COST

SEED ACQUISITION AND APPROVAL

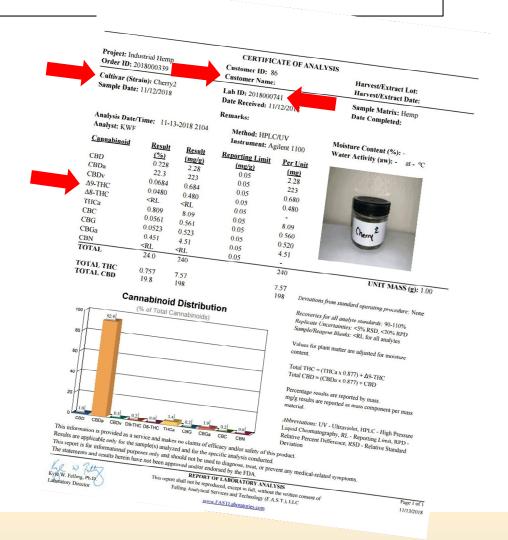

- Purchaser must possess a LA Industrial Hemp License
 - Do not buy, sell or transfer to or from any person without verifying LDAF Industrial Hemp License or license/permit from state of origin
- Seed Acquisition Request form
 - > Submit to LDAF minimum 2 weeks prior
 - Obtain written approval from LDAF
- Certified/non-certified seed from other states/countries
- Certificate of Analysis
 - Legitimate third-party laboratory

SEED ACQUISITION AND APPROVAL

- Mature parent material
- Lab ID Number
- ➤ Variety/strain name
- Seed Owner at time of testing
- > THC level (=< 0.3%THC)

SEED ACQUISITION AND APPROVAL

Hemp and the Louisiana Seed Law & Regulations...

- Industrial Hemp seed sold/distributed into or within LA is subject to Louisiana Seed Law and Regulations
 - Sellers/distributors must possess a LA Seed Dealer License
 - ➤ Labeler/Guarantor who sells or distributes, must have a complete analysis test performed on the seed
 - > Contain minimum purity/germination quality standards

IH – Certificate Of Analysis

Required Tests:

> THC

Optional Test:

> CBD

Please remember.....

ROAs and COAs are expressing lab tests of very different attributes of the material.

Agriculture & Foresu,

IH – Certified Seed

Just because seed has been tested at a seed lab......
...it DOES NOT mean that the seed is or has been officially "Certified" under the Assoc. of Official Seed Certifying Agencies seed certification process!!!

IH - Certified Seed

Assoc. of Official Seed Certifying Agencies (AOSCA)

Website: https://www.aosca.org/

"The purpose of seed certification is to preserve genetic purity and varietal identity. It is an official AOSCA-agency program enabling seed companies to market genetically pure seed. Certification services are available for **field crops**, turf grasses, vegetables, fruits, vegetatively propagated species (e.g. liners, clones, cuttings, etc.), woody plants and forbs. The four AASCO seed classes are Breeder (Gold tag), Foundation (White tag), Registration (Purple tag), and Certified (Blue tag).

Once seed has been certified, it qualifies for the official "blue" certified seed tag and meets state, federal and international seed law requirements. Certified (Blue tag) seed is the progeny of Breeder, Foundation or Registered seed produced and handled to maintain satisfactory genetic purity and varietal identity.

Strict requirements for producing certified seed include:

- **Genetics** only eligible propagation stock permitted
- **Land Requirements** production field isolation
- **Field Standards** production field inspections
- **Seed Standards** min./max. impurity standards
- Meets standards set by an AOCSA member (e.g. LDAF)

and advance agriculture and forestry, and

IH – Certified Seed

Why purchase Certified seed?

- Third party quality control <u>production</u> program for the planting material
- Third party verification/testing of planting material genetic purity
- Third party verification of <u>planting material variety</u>
- Third party testing for <u>seed viability</u>
- Third party testing for <u>physical purity standards</u> of the seed
- Third party <u>inspection</u> of the planting material production area
- Third party assurance of the quality of the planting material

Note: Seed are required by State regulatory and probably most AOSCA agencies to be tested for THC levels to be certified.

GENERAL LICENSE REQUIREMENTS

- Applications processed through LDAF Industrial Hemp Program
- License will expire at the end of each calendar year
 - Renewals by Nov 30th each year
- Licensee shall not allow unlicensed person "not employed by them" to grow, cultivate, handle, store or process under their license
- Must be 18 yrs of age

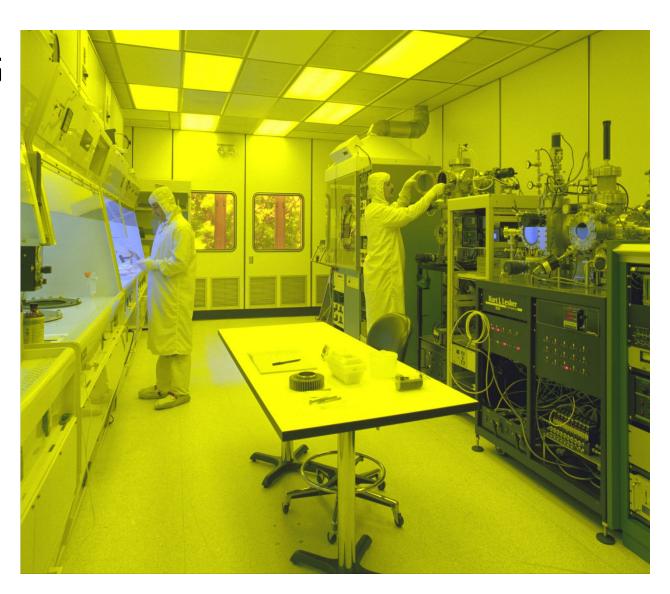

GENERAL LICENSE REQUIREMENTS

- No felony within 10 years
- No drug-related misdemeanor within 2 years
- Must provide all application documentation to be considered
- If applying for multiple licenses, application for each
 - \$500 each
- Any changes to application material must be submitted to LDAF in writing within 15 days of the change
 - Change in growing, handling or storage location
 - Change in **business ownership**

- TEST

LABORATORY

- LDAF Lab will be testing the medical marijuana.
- Testing for:
 - Solvents
 - Heavy metals
 - Mycotoxins
 - Pesticides
 - Contaminants

PROCESSING LABELING

Each label shall include:

- Batch no. to trace the plant used to make the product
- List of solvent, chemicals and pesticides, if used
- List of ingredients
- Potency of the THC and CBD in the product
- Expiration date
- Statement that the product has been tested for contaminants
- "Contains Medical Marijuana. For Medical Use Only. KEEP OUT OF REACH OF CHILDREN"
- "There may be additional health risks associated with the consumption of this product for women who are pregnant, breastfeeding, or planning on becoming pregnant."
- a statement that it is illegal for any person to possess or consume the contents of the package other than the qualifying patient

WARNING: For use by adults 21 and older. Keep out of reach of children. It is illegal to drive a motor vehicle while under the influence of marijuana.

May cause drowsiness.

Alcohol may intensify this effect. Do not use while operating a car or heavy machinery. Keep out of reach of children. FOR MEDICAL USE ONLY, IN COMPLIANCE WITH I

PROCESSING PACKAGING

The product may not be placed in packaging that specifically targets individuals under the age of 21. Packaging must not:

- bear any resemblance to a trademarked, characteristic or product-specialized packaging of any commercially available candy, snack, baked good or beverage;
- use the word "candy" or "candies";
- use a cartoon, color scheme, image, graphic or feature that might make the package attractive to children; or
- use a seal, flag, crest, coat of arms or other insignia that could reasonably lead any person to believe that the product has been endorsed, manufactured, or used by any state, parish, municipality or any agent thereof.
