SOLD OUT

Active Ingredient: Clomazone

Formulation: 3CS

Registrations: Section 3, State, State 24c

Tankmix supplemental – *Over 100 approved combinations*

*Data Courtesy of University of Arkansas at RREC 2019

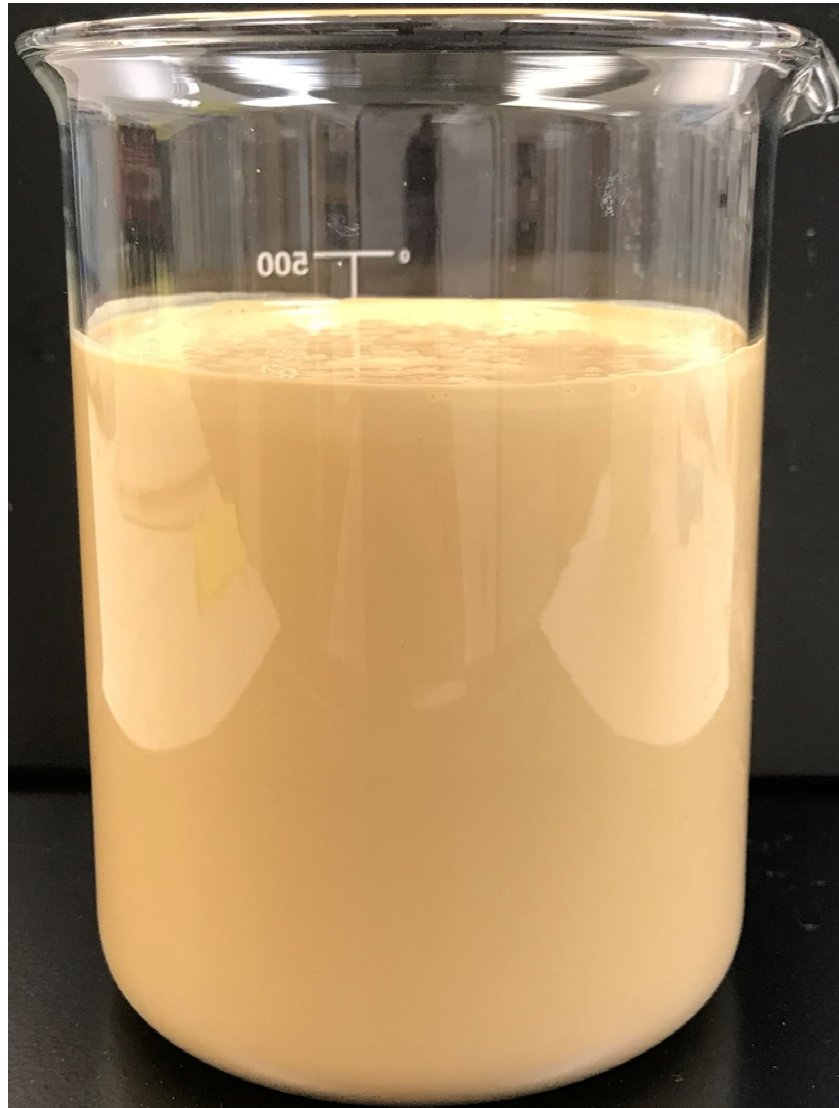

** UpStage 3CS is a pre-emergence herbicide requiring moisture for activation. If grass or broadleaf weeds are present at time of application. Include a tankmix product such as SuperWham® to control emerged grass and broadleaf weeds. Please contact your local retailer or UPL-NA representative for more information.

UpStage 3CS new for 2020 with over 105 registered aerial application tankmix combinations. **See state SLN and supplemental tankmix labels

 UP-STAGE™ 3CS
HERBICIDE

Active Ingredients:

Microencapsulated pendimethalin + clomazone

Specifications:

- Formulated as a 3.63 lb ai/gallon aqueous capsule suspension technology
 - One gallon of RiceOne® CS contains 2.56 lb ai pendimethalin and 1.07 lb ai clomazone.
 - RiceCo's own proprietary, patented micro-encapsulated formulation technology called capsule suspension (CS).
- Convenient use rates – 35 to 50 fl oz/acre.
- Packaged in 2.5 gallon containers / each case contains 2 x 2.5 gallon containers.

Equivalency Table

RICEONE CS fl oz/Acre	COMMAND 3ME fl oz/Acre	Prowl H2O fl oz/Acre	Prowl 3.3 EC fl oz/Acre
24	8.6	16.2	18.6
32	11.5	21.6	24.8
40	14.4	27.0	31.0
46	16.6	31.0	35.7
48	17.3	32.3	37.2
50	18.0	33.7	38.8

* Example: 24 fl oz/Acre of **RiceOne® CS** contains the equivalent of 8.6 fl oz/A Command 3ME plus 16.2 fl oz/Acre Prowl H2O®.

Benefits:

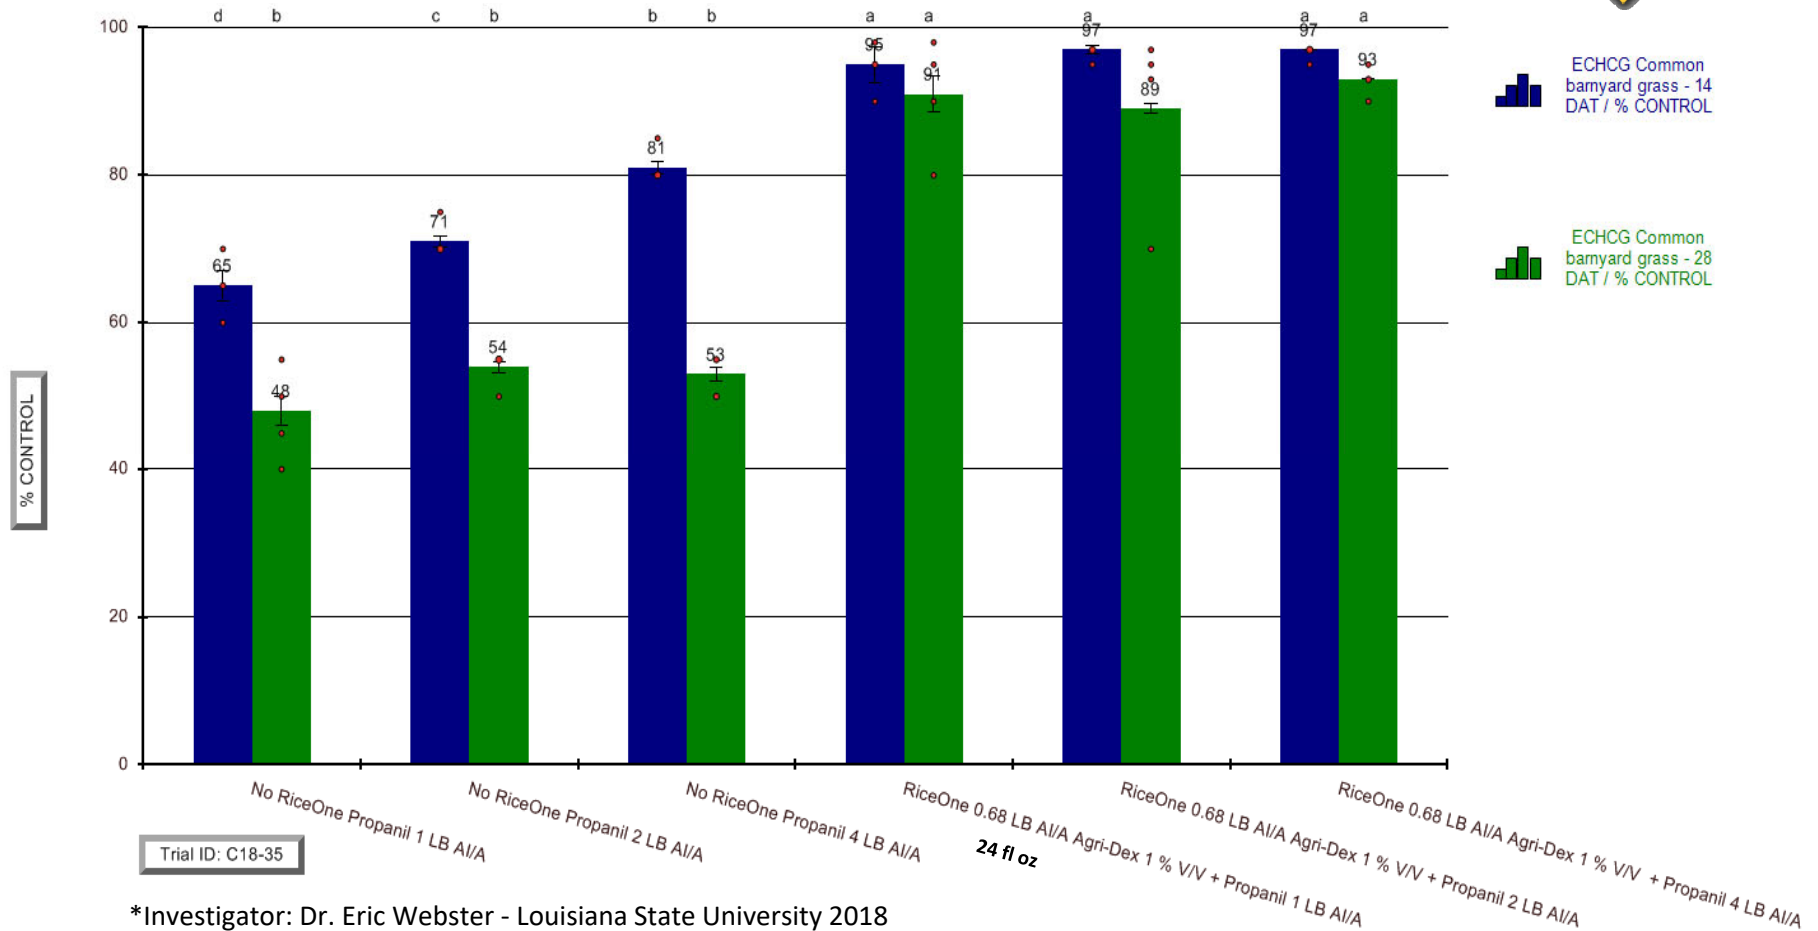

- Broadest Residual Spectrum
- Extended more Consistent Grass Control
- Flexible Application - (*delayed pre-emergence to early post*).
- Resistance Management - Multiple Modes of Action
- Perfect Partner with Provisia Technology
- Synergistic with SuperWham

Command[®] 3ME Pre-emergence fb RiceOne[®] CS Mid-Post plus SuperWham
