Value Drivers in Agriculture Today – That’s Who We Are @ BASF – Creating Chemistry

Yield & Performance

#1 attribute in seed varieties is yield potential

Axant™ Flex Cotton

Nematode Resistant Soybeans

Weed Resistance Management

Expanding resistance to multiple herbicide modes of action

Surtain™ Herbicide

Glu-L™ Technology

Residual Pre-mixes

Voraxor™ Herbicide

Disease & Pest Management

Yield losses from leaf & tar spots; corn root worm resistance

Veltyma® Fungicide

Revylok™ Fungicide

Nurizma™ Insecticide

Business Support

Increases in operating loans with rising interest rates

Financing Business Support & Services

Always read and follow label directions. Refer to published program documents for full details and terms and conditions. Surtain herbicide and Voraxor herbicide are not registered and not available for sale. This information is provided for educational purposes only and is not intended to promote the sale of the product. Any sale of this product after registration is obtained shall be based solely on the EPA approved product label, and any claims regarding product safety and efficacy shall be addressed solely by the label. Axant, Revylok, Surtain, Glu-L, Voraxor and Nurizma are trademarks and Veltyma is a registered trademark of BASF. Xitavo Soybean Seed is distributed by BASF Corporation. XITAVO is a trademark of M.S. Technologies, L.L.C., West Point, IA. Revylok™ Fungicide Launch 2024 - Excitement

Revylok™ Fungicide Advantages

Effective Resistance Management Tool

- High intrinsic activity against a broad range of fungi
- Powerful against pathogens that have developed resistance*

*To QoI: FRAC Group 11, MBC: FRAC Group 1 fungicides.

Powered by BASF's Latest Active Ingredients:

Revysol®

Active Ingredient
(FRAC Group 3)

Xemium®

Active Ingredient
(FRAC Group 7)

- Formulated for quick plant uptake and outstanding residual activity
- Residual activity and low water solubility support consistent translocation

Always read and follow label directions. Revylok is a trademark and Revysol and Xemium are registered trademarks of BASF.
